Cell Phone Policy

James J. Shea Sr. Memorial Library offers a wide range of services and materials to students, faculty, staff, and other community patrons. While in the library all patrons expect to find a place for quiet study, research, and concentration.

**Cell phones are to be set to “silent” mode upon entering the library.** Patrons should be considerate of other library patrons around them and refrain from cell phone use in study and computer areas. If a conversation is necessary patrons should move to a stairwell or leave the library. Cell phone use is strictly prohibited in the reading (flag) room and the second floor is considered a quiet area.

Library patrons are encouraged to report inappropriate cell phone use to a library staff member.

Patrons who fail to adhere to this policy will be asked to leave the library. Repeat abusers risk loss of library privileges.
