

## How-To Guide: Share Your LinkedIn Profile with a QR Code

Want to make networking a breeze? Use LinkedIn's built-in QR code feature to share your profile instantly! Follow these simple steps to create and scan your LinkedIn QR code:

### Create Your LinkedIn QR Code

1. Open the **LinkedIn app** on your phone.
2. Tap the **search box** at the top of the screen.
3. On the far right of the search box, tap the **QR code icon**.
4. Your QR code will appear! You can:
  - **Share it digitally** via email, WhatsApp, etc.
  - **Save it to your phone:** Tap "Save to Photos" to keep a copy handy.

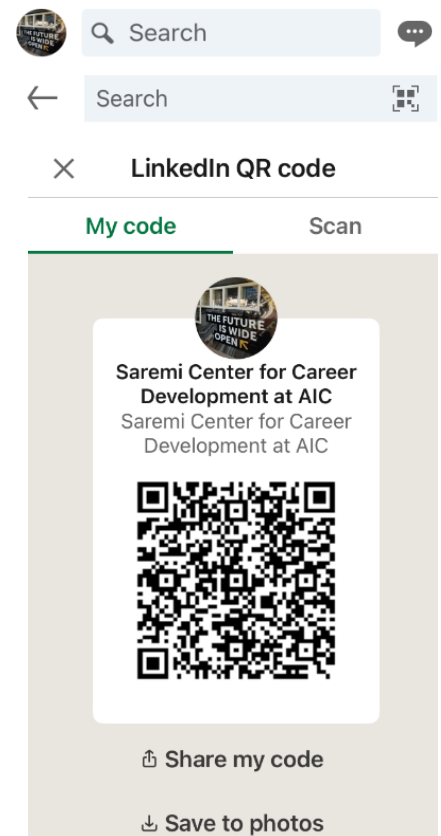

### Share Your QR Code in Person

- Open the QR code using the steps above.
- Show your phone screen to someone so they can scan it.
- Alternatively, share the saved QR code from your photo gallery.

### Scan Someone Else's LinkedIn QR Code

1. Go to the **same QR code screen**.
2. Tap the **"Scan" tab** to scan someone else's code.

💡 *Pro Tip:* Even if the person you're networking with isn't on LinkedIn, you can email or message the QR code to give them easy access to your profile later.

🌟 **Happy networking!** 🌟
